

YEARLY MAINTENANCE CHECKLIST

Spring

- Schedule a routine service appointment with Garrett's
- Check tires, pressure, and tread depth
- Check alignment
- Test your brakes; schedule an adjustment if necessary
- Check steering
- Clean the battery connections with baking soda and water; *if you see serious corrosion or can't get your golf cart to start, you may need to replace the battery*

Summer

- Check tires, pressure, and tread depth
- Check bushings; replace if worn out
- Check for oil leakage
- Check for battery corrosion or destroyed wires
- If you have a gas cart, inspect the engine
- Check steering; adjust steering wheel if too loose
- Replace spark plugs if necessary (replace every 3 years)
- Replace fuel filters
- Check drive belt; replace immediately if cracked or missing chunks
- Perform basic safety inspection
- Check for loose connections

Fall

- Schedule a routine service appointment with Garrett's
- Check tires, pressure, and tread depth
- Check alignment
- Test your brakes; schedule an adjustment if necessary
- Check steering
- Clean the battery connections with baking soda and water; *if you see serious corrosion or can't get your golf cart to start, you may need to replace the battery*

Winter

- If you have a gasoline cart, inspect the engine
- If you have an electric cart, charge the battery completely and clean it with an anti-corrosive before putting it in storage; spray the battery with an acid neutralizer
- Charge your battery weekly, even if you're not using your cart. Be sure to disconnect/reconnect the charger from the wall each time to reset the charger
- Check tires, pressure, and tread depth
- Bring your cart in for an annual tuneup so it will be ready come springtime
- Consider upgrading or trading in your golf cart so you will be ready to ride in style in the spring!**

GARRETT'S OFFERS A FULL-SERVICE REPAIR SHOP AT EACH OF OUR LOCATIONS.

Our professionally trained golf cart technicians can perform any service your cart needs including engine tune-ups, oil changes, tire and battery replacement, and more. We stand behind the quality of every vehicle we sell. Our aim is to provide customers with the service they need to keep their carts running optimally!

Regular Weekly Maintenance

- Keep an eye on water level and battery connectors
- Charge your battery
- Keep an eye on all lights
- Drive your golf cart regularly, even if it's just to the mailbox and back
